Here we have Ralph Cutters E/C Caddis pattern. The fly was developed to represent an emerging Caddis.

**HOOK:** Daiichi 1310 or TMC 9300 sizes 14 and 16 (1X short dry fly hook)

**THREAD:** Olive

**TAIL:** Ginger Zelon or Antron

**ABDOMEN:** Ginger Haretron

**WING:** Deer body hair

**HACKLE:** Dun saddle

**THORAX:** Caddis green dubbing
Place your hook in the vise, make a thread base and tie in the Zelon.

Dub the abdomen.
Dub the thorax.

Tie in your hackle.
Select your Deer hair, clean out the under fur, stack the Deer hair and tie to hook shank.

Wrap 3 or 4 turns of hackle, parachute style and secure parachute style.
Trim excess fibers, make neat and you are finished. Sometimes I steam the fly to get all the fibers right.
